## LIVINGSTON

Master of Trains, Maris after an extended visit to Indianapolis Ind., has returned home — Mrs. H. D. Magee was visiting in Mt. Vernon last week. — It seems like the new Judge is waking up the county to a full sense of its duty. Judge Bethurum is an able lawyer and we predict for him a bright future. — We are sorry to hear of the death of Mr. D. N. Williams. He had many warm friends in Livingston and Mt. Vernon loses one of its best citizens.

Judge H. D. Magee was in Mt. Vernon Sunday night. — Chief Dispatcher, Lemons, Dr. Childress, Robert Gregory and the writer were in Louisville Thursday, hence his is why there was no letter from Livingston last week. — Born to the wife of Charlie Bryant a fine girl on the 29th. — Dr. Myers, dentist of Mt. Vernon was here Monday doing dental work. — L. G. Falin was in Pine Hill Monday. — Walter Gilford of East Bernstadt is moving to Livingston. — A party of fishermen left yesterday morning, composed of J. E. Woodall, H. L. Davis, C. E. and W. B. Rice. They have built two large boats and will go as far down the river as the narrows and last but not least Phil Carrier will go along as guide and cook. We look for glowing accounts of their trip on their return. — Master of Trains W. O. Dilly, of Lebanon Junction, was in our little burg Wednesday. — Born to the wife of Fred Owens a fine boy on the 1st.

J. W. Woodson has moved over Roundstone in the Bowman & Cockrell addition. — Mrs. D. K. Argenbright is visiting her son, Thomas, at Etawah Tenn. — Well in the near future, there is to be another wedding and two more hearts will be made happy. Well if I can get married myself I can write up the lucky ones but that is poor consolation. Oh you Cupid, why don't you come my way. — W. H. Burton was in Mt. Vernon Monday on business. — Dee Bryant, of Lebanon Junction, is here repairing his property. — The Livingston Lumber Co have men here at work on their saw mill and it will be just a few days until we can hear the welcome sound of the whistle and we will know then that a plant that has lain so long in idleness has awoken from its sleeping lethargy and has once more gone to work. — If I should not get a very long letter this week the readers can rest assure that it is on account of a very sore hand which I had the misfortune to get burned.

Col. Sam Ward seems to be improving. — Dr. W. J. Childress was asked why it was that he had taken a notion to leave the county his answer was, "I want to get where there are good roads" he said that. "we have such poor roads here that it not only hurts a horse but kills a man". Well Mr. Shuts hurry up your good road talk and let's get better roads before we lose some more of our best citizens on the account of having roads. — Rev. Livingston filled his regular appointment Saturday and Sunday. — Dr. R. G. Webb has purchased Dr. W. J. Childress house and lot, price paid \$2000. — Dr. W. J. Childress and Lee Johnson were in Mt. Vernon Tuesday. — A. C. Carpenter one of the grand jurors is at home this week. — F. McClure is very sick at this writing — Mr. and Mrs. C. P. Reynolds are in Louisville this week. — Miss Clyde Lear is visiting Miss Lydia Cook this week. — Mr. G. D. Cook has moved into the Mullins hotel. — At present we are having a quiet time in old Livingston. Seems like all are trying to attend strictly to their own business. Now this suits me and I am hard to suit. There was one here that took exceptions to what I said about the hatchet being buried and peace being restored now I am for peace at any cost and why men who are recognized leaders in religion and educational circles should object to peace is more than I can comprehend while I have been accused of taking sides this might have been but I did not mean it that way. I wish at all times to advocate the right but I will admit we sometimes

error when we think we are doing right but I hope I will hear no more from the man that cross swords with me over what I said about peace.

## CONTESTANTS GETTING BUSY.

## IN THE SIGNAL'S BIG PIANO CONTEST.

## VOTING ALREADY BEGUN.

The big piano contest now being conducted by the SIGNAL is attracting lots of attention and several young ladies have entered the past week in addition to those who had previously announced. Voting has already commenced, and as some of the young ladies are putting forth their best efforts the race promises to get pretty warm in the next few days. The girls who are now in the race seem to have the right spirit and are out to win if hustling will do it.

If there are other young ladies both in Rockcastle or adjoining counties who would like to enter, we will be glad to have anyone send in their names as nominees. The person who nominates the successful contestant for the piano will be given a year's subscription to Taylor Trotwood Magazine. In case two nominate the same winner then the Magazine will be given to the person first making the nomination. A coupon for making nominations will be found in another column.

The piano to be given away in this contest will arrive soon and will be placed on exhibition.

The contestants are all well distributed in various parts of the country, which will give each young lady an equal opportunity to win the piano. Besides the piano there will be other nice and valuable prizes offered. Every young lady entered will have an equal chance to win the piano or one of the special prizes.

The voting will be entirely fair to all contestants and will be the supervision of three judges whose honesty, integrity and fairness will not be questioned by anyone.

Remember there is nothing like a good start if you want to win one of the handsome prizes offered, and nothing like keeping everlastingly at it after you have started. If you haven't been working hard and have been meeting only with ordinary success, begin now and redouble your efforts, for, you know nothing succeeds like success and success comes only to those who persevere. There are plenty of persons who are ready to become subscribers merely for the asking and it only remains for the asking and it only remains for some energetic young lady to secure them.

Gov. Wilson Saturday accepted the resignation of State Superintendent of Public Instruction Prof. J. G. Cabbe and appointed Prof. Ellsworth Regenstein, of Newport as his successor. Prof. Crabbe will become president of the Eastern Normal school at Richmond. Prof. Regenstein will serve until January, 1912.

No significance is attained by Government officials in Washington to the published statement that President Diaz of Mexico has declared in a message to the Mexican Congress that his Government fully recognizes that Madriz administration in Nicaragua.

## What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid rising in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. KENTUCKY PRESS ASSOCIATION

ANNOUNCEMENTS.  
We are authorized to announce HON.  
HARVEY HELM as a candidate to suc-  
ceed himself as Representative from the  
Eighth Congressional District subject to  
the action of the Democratic party.

PROBABLY more accidents result  
from carelessness and disregard of  
law than from any other cause.  
This has been strikingly seen with  
to the last week or two. A dread-  
ful railroad wreck in Iowa, caus-  
ing the horrible death of nearly  
fifty passengers and injuring many  
others was caused, so it is said, by  
an engine being driven, with the  
tender foremost, which was against  
the law. A few days afterward a  
dozen people, mostly women, were  
burned to death in a manner that  
brought vividly to mind the terrible  
Iroquois Theater disaster in the  
same city a few years ago. In this  
case as in that there were no fire  
escapes and so victims were caught  
like rats in a trap. Of course in  
both the railroad wreck and the  
fire someone was to blame, but it  
remains to be seen if the guilty one  
is punished. Remember-  
ing the outcome of the "General  
Slocum" steamboat disaster in  
New York bay, the school tragedy  
in Collingwood, O., the Iroquois  
Theater holocaust and many others  
one is inclined to be sceptical.

This is not the country, nor is  
this the time for uscrupulous  
politicians to thwart the public  
will and check the work of progress  
by being the instrument of business  
monopolies. It may succeed for  
a while but sooner or later an out-  
raged public conscience sweeps the  
way clear.

GOOD citizenship and the sense  
of right between man and man  
demands that everyone shall make  
his living by right and fair means  
and that actively he seek to advance  
the common good.

GOOD things are contagious as  
well as bad things, and that is an  
encouragement and a comfort.  
Every man who works wisely in  
various ways to help his town is  
not only getting lots of satisfaction  
out of it, but he is also setting a  
good example to others, and that  
example may prove contagious.  
We know of a man who, like many  
other men, lived in a place where  
no effort was made to make it look  
attractive. Weeds, uncut grass  
and rubbish were allowed to flour-  
ish and become an eyesore. Most  
people seemed content to have it so  
but this man was not. Singly, at  
first, and with undaunted courage  
and persistency he kept his own  
property in good condition. Then  
one neighbor after another followed  
his example and soon the whole  
town awakened to the need of  
making the place attractive, and  
today that city is one of the most  
popular and is admired for its  
beautiful appearance.

It is cheering to know that in  
some quarters the percentage of  
insanity is either stationary or  
decreasing. Probably the increase  
in insanity during the past few  
years was actually not so great as  
seemed. In former days many  
insane people so long as they  
were not dangerous were not  
enumerated. Under the present  
stringent and systematic system all  
such cases are counted which made  
the higher percentage more ap-  
parent than real.

THE United States senate has  
decided not to employ a profes-  
sional masseur. The self-denial of  
the senate is remarkable but none  
the less wise. If these extra ex-  
penses for personal gratification  
were allowed to go on unchecked  
the members of the most "dignified  
deliberative body" in the world  
might want to build at the nation's  
expense cottages for themselves on  
the banks of the Potomac.

LEGISLATORS are supposed to be  
chosen by the people to represent  
the people but the promise made  
by candidates to the voters before  
election are two often broken after  
election and the "dear people"  
neglected that the behests of  
special interests may be carried out.  
It is only by eternal vigilance, and  
assistance that many representa-  
tives of the people do even tolerable  
well.

SUNDAY is a good day, the very  
best in the whole week, but it is  
not the day on which to measure a  
man's religion. That can be  
better done on the days that fol-  
low.

EVERY man's power is his idea  
multiplied by and projected through  
his personality. Many men or  
ideas fail because the necessary  
condition is wanting.

THERE is doubtless a good  
deal of truth in the statement that  
the poor, in proportion to their  
means, are more extravagant than  
the rich, especially in the matter of  
food. Certainly in these days of  
soaring prices unmarked by a  
corresponding increase in wages  
the poor can ill afford to be waste-  
ful. It is a question for nature  
consideration whether it would not  
be better to devote some of the  
time at present devoted in our  
public school to the study of sub-  
jects that are of no after value to  
the pupil, to the pupil, to the  
teaching of domestic science prac-  
tical demonstrations. No doubt  
it is quite an accomplishment to  
draw a leg of mutton but it would  
be more appreciated in the home  
life if one were taught how to  
properly cook it. The study of  
botany is perhaps fascinating but  
to know how to properly cook  
and serve up vegetables would have  
more practical value. What the  
average boy needs is that which  
will fit him for the practical affairs  
of life and what the average girl  
needs is that which will help her to  
be a true home maker.

The mother of a rich banker  
once said that the family attained  
its high position by having saved  
buttons. She referred to a habit  
of hers, early acquired of saving  
the buttons from cast off clothing.  
Of course the lesson taught was  
that of thrift and economy. If  
these qualities were more fully  
practiced in times of prosperity  
there would be far less poverty  
and anxiety in times of business  
depression.

We can work a great many  
things into our individual life, but  
character is the only thing we can  
take with us into the next world.  
Yet character is almost the last  
thing some people seem to care  
about.

WHAT we need in this world  
sometimes so cold and hard to  
individuals is more of the sunshine  
of a cheerful smile, kind word  
and useful deed.

THE way to lift oneself up is by  
helping to lift others. No one  
ever amounted to anything with-  
out the help of others.

Both "wets" and "drys" discuss  
with keen interest the return of so  
many cities of the Central West to  
the old school system, as shown by  
the results of Tuesday's elections.  
Many reasons are advanced by  
leaders for reclamation of so much  
territory by the advocates of licen-  
sation, the chief ones being the  
failure of the prohibition laws and  
the manner of their enforcement;  
the increased taxes due to loss of  
revenue and the failure of the anti-  
saloon element to keep up their  
fight.

Dr. E. J. Brown has returned  
from Philadelphia, where he was  
taking a special course, to take  
personal charge of the case of  
John Owsley Reid, who continues  
quite ill with typhoid fever. Dr.  
Brown has been the young man's  
family physician for years and Dr.  
McMurry, who was here from  
Louisville last week to see him, ad-  
vised that Dr. Brown be sum-  
moned home, as he could un-  
doubtedly better understand the  
case than any other physician.  
Mr. Reid was not so well Monday  
morning.—Interior Journal.

The Rockcastle County Base Ball  
Association met on April 2, 1910 at  
the store of Chas. C. Davis and  
although but few of the representa-  
tives of the different teams were  
present, those that did come showed  
considerable interest and are very  
anxious for the proposal suggested  
by Mr. Davis, that we organize  
into a county league and play more  
base ball than has ever been played  
in the county before. After  
several talks by those present Wm.  
Owens, Spiro, Ky. was chosen  
Pres. and Chas. C. Davis Sec'y.  
The meeting closed to be called  
again April 15 1910 when we will  
be glad to see many of the  
"swatters of the horseshoe" come  
in on the appointed date and assist  
in the completion of the organiza-  
tion. Don't forget the date.

GRADED SCHOOL.—The question  
of a graded school is being agitated  
to a certain extent in Mt. Vernon.  
Do we want such a school? What  
does it mean and what will be the  
result? Those are some of the im-  
portant questions for us to consider  
before we act. If we established  
a graded school the plan is to buy  
out the Brown Memorial, which  
does away with that splendid in-  
stitution. Then what chances are  
taking? Maybe the graded school  
would be a success and maybe it  
would not? We vote a tax for  
school purposes which is hard to  
get rid of whether we are satisfied  
with the school or not. We would  
be letting go an institution which  
has done more for the up-building  
of our town than all else combined.  
If Mt. Vernon could maintain two  
schools and the majority of the  
people, favored a graded school,  
then we would say amen, but such  
not being the case, and we must  
choose between one or the other,  
then let's hold on to what we  
already have, which we know is  
alright and not let loose to take  
hold of something we have to try  
to find out. The question is asked,  
but how is the County Board to  
take care of the high school pupils,  
unless the county builds a High  
School building or the town es-  
tablishes a graded school. Let the  
Brown Memorial take care of the  
High School pupils. The Attorney  
General has ruled that such a  
deal can be made, even though it  
be a denominational school, if  
sectarianism is not tought. The  
Sue Bennet, of London is to do the  
High School work for Laurel  
county and we see no reason why  
the Brown Memorial can not do the  
work for Rockcastle. The public  
school in Mt. Vernon is a fair ex-  
ample of what a graded school  
would be, judging the future by  
the past, and prompted by no  
personal feeling whatever, but  
purely from a standpoint of the best  
interest of the town, county the  
rising generation and cause of edu-  
cation, we appeal to our citizens to  
think seriously before you act.  
Let us be sure we are right then go  
ahead.

## PIANO CONTESTS WARMS UP

SEVERAL GETTING AT WORK BUT  
THERE IS ROOM FOR MORE

The SIGNAL's voting contest, in  
which a fine piano and other valu-  
able prizes are to be given away is  
now nicely started and considerable  
interest is already being manifested.

In another page of this paper  
will be found an advertisement  
containing the particulars regard-  
ing the contest in which we present  
to the most popular young lady in  
Rockcastle or adjoining counties a  
fine \$400 piano, as well as a num-  
ber of other valuable prizes.  
The object of this contest is to  
introduce THE SIGNAL into the  
homes of more people. We have  
at present a large list of subscribers  
but want more, and have decided  
that this is the best way to get  
them.

This piano will be given to the  
young lady receiving the greatest  
number of votes. A certain num-  
ber of votes will be issued for each  
dollar paid on subscription. These  
votes can be made in favor of any-  
one whom the subscriber wishes,  
therefore the young lady who ob-  
tains the greatest number of sub-  
scriptions to the SIGNAL will be the  
one to secure the piano.

This is no lottery scheme. There  
is absolutely no risk in this gift  
distribution. It will be something  
worth while to win this piano,  
because it will require merit to do  
that.

This is no cheaply made indif-  
ferently toned instrument, but the  
best that could be procured in the  
market outside of the very highest  
priced class. It is a piano that any  
family would be proud of in the  
home.

He was able to be in town yesterday, and we trust he may not have to suffer much pain from the accident.

## CIRCUIT COURT.

On account of the death of Mr. D. N. Williams but little business has been done in court this week, as most all the cases set for trial, were cases in which Attorney C. C. Williams was interested. The case against Harvey Smith charged with the killing of Ewan O'Neal ten years ago was tried Wednesday.

This is a case in which the defendant left the county immediately after the killing and went to Missouri, married and was doing well, but deciding that he had lived in exile long enough, surrendered himself to the officials of Missouri, and was brought here in the early winter to stand trial, since which time he has been confined in the County Jail. There is only one living eye witness Harvey Nicely, who at the time of the killing was only 8 years old.

W. M. Sowder, Allen Burdette, Richard Proctor, Carroll Martin, P. E. Shivel, W. M. Pennington, Chas. Wilson, D. G. Bullock, R. G. Moore, J. C. Rimel, Squire Singleton and W. L. Bowman, the jury who tried the case were out only a few minutes when they returned a verdict of not guilty.

The case against Pur Rigsby for the killing of Greely Lear was called yesterday morning when both sides announced ready. Owing to the fact that Judge B. J. Bethurum had been an attorney in the case, before his election as judge, it was necessary for him to vacate and a special Judge was appointed Judge D. H. French, of LaGrange, was selected to preside in this, as well as a few other cases in which the regular Judge is rendered ineligible because of his former connection.

The regular panel having been exhausted a special venire of 50 men was summoned to appear here this morning, when the selection of a jury will be completed.

WILLIAMS:—Mr. David N. Williams aged 73 years, died at his home in our little city Monday night, after an illness which lasted him since last December. For several months he had been in poor health, suffering from attacks of heart failure and other complications. Last fall, he made the race for County Court Clerk and made a hard and vigorous fight, notwithstanding the fact that his family, who fully realized that he was unable for such a task, appealed to him time and again not to make the race, but in vain. The task he undertook, was too much and no doubt, the hardships and over-work lessened his days. For more than four months before the end he was unable to lie down, resting as best he could in his big arm chair. Since spring had opened he was apparently much improved, often walking up town, and each day would walk out over his premises. On last Sunday and up till 10 o'clock Monday he felt better than he had felt in months, writing several letters Monday morning. But alas! it was only a forerunner of what was soon to come. About 10 o'clock he told his family that he was hurting so, that he believed he was taking pneumonia. Gradually he grew worse, until 2 o'clock when he passed into a state of unconsciousness and exactly at 10:40, the death angel knocked, and his spirit was waited to the God who gave it. The deceased had always been until his last illness a strong and vigorous man, strong in body and mind.

In his younger days he took an active part in political affairs, and his advice was always sought upon all political questions as well as other matters. In 1873 he was appointed County Court Clerk for one year, to fill the vacancy caused by the death of E. T. Fish, being elected at the next regular election, and re-elected, serving in all nine years. He once made the race for Representative against the late Robert Cook, losing by only sixty nine votes, notwithstanding the district was overwhelmingly republican.

In 1873 he was the contending candidate against the successful candidate for Register of the land Office. On the 24th day of April 1860, he was united in marriage to Miss Mary Haley and to this union were born five children, two to bless and honor this union, four sons and one daughter all of whom are still living; Atty C. C. Williams, a most successful member of the local bar, Judge R. G. Williams Commonwealth's Attorney of the Kenton district, M. C. Williams, a successful druggist of Somerset, John Williams a prosperous merchant of Los Angeles, California, and the daughter Mrs. Cleo Brown,

who since the death of her husband has been engaged in the millinery business in Mt. Vernon and made her home with her parents.

Besides his wife, sons and daughter, he leaves two brothers, Mr. J. C. Williams of Cadiz, Ill., who is more 90 years, and Mr. W. H. Williams, of Aztec, N. M., who is nearing his four score years and one sister Mrs. J. W. Vanawinkle of Mt. Vernon.

Short services were conducted at the home by Mr. W. H. Cox, after which the remains were laid to rest in Elmwood cemetery with Masonic honors, the deceased being one of the oldest members of order living in the county. Brown Memorial joined in the march and attended the funeral in a body.

But few men could claim more admiring friends than the deceased which was fully demonstrated by the large number of sorrowing friends who came far and near to pay their last respect.

Peace to his ashes glory to his immortal soul.

A visit to the Brown Memorial School is sufficient evidence of the splendid work that institution is doing. The systematic and thorough manner in which every thing is done, bespeaks the fitness of the Miss McCord and her faculty for the responsible positions, which they occupy. The public are cordially invited to attend the chapel exercises each morning from 8:30 to 9 o'clock, and those who have not attended these exercises should avail themselves of the opportunity, that you may know, what is being done for your own children, your neighbors children, the town and county in general in that great cause of education.

ATTENTION: This office will print a directory for the local telephone company next week. The telephone manager, at exchange, wishes to call attention of every telephone user to the fact that the most important instructions as to use of telephone are reduced to a few lines as possible in this directory so there can be no excuse for any one failing to read and post themselves. It is very necessary in getting good service to observe instructions given in the directory. Five minutes is the limit on conversations. Don't hold the line longer; if necessary you can call again later. When you get "connection" over lines, tell your party who and where you are and for goodness sake don't burden the line and delay business by "saying guess who this is?" as others are often kept waiting.

RATS: Rat killing days have been set in various localities throughout this and other states, for, and during the month of April. Are they bothered with the pests as much as in the past?

## A Watch Is Made to Keep Time

Of what use is a watch if it will not tell correct time? When we repair a watch we want it to keep correct time. We not only repair watches, but we adjust and time them. There is a difference in simply repairing a watch and adjusting it. A mechanic can often repair a watch, but it requires art and skill to adjust and time a watch after the repairing is done. When we repair a watch we do the adjusting and timing FREE. The accurate adjusting and timing we give a watch is what makes our repairing satisfactory.

## "SUNSHINE" SUNDAY.

Why should not every Sunday be a Sunshine Sunday? Why should not the admirable idea, which we will make hold to ascribe to our earnest hearty friend. A Gordon Murray; why should it not bear fruit of joy, of uplift and of solace fifty-two times in the year?

It is a strange thing, which we will not attempt to explain, but which nevertheless is demonstrably true, children considered en bloc do not feel at home in church except on those stated occasions, when, as on Easter Sunday, the church is turned over to them and, if we may be permitted the untoward conjunction, they are given the center of the stage. Even then, those of lesser social brilliancy, those whose feathers are thin and bedraggled, those whose behavior needs curbing and controlling, who cannot be joyful without shouting, to whom a whoop or a whistle is a safety valve, those feel sadly out of place. For all their apparent roughness and rawness, for all their assumed callousness and contempt, they are sensitive; they feel or imagine a slight, they nurse an inarticulate grievance, they are penetrated with the depressing conviction that, either they are being paraded as the evil example or else they are not wanted. The notion that Heaven, so far as it may be represented on earth, is peopled by well-dressed, well-fed, self-satisfied angels, somewhat sniffily superior, once it enters a child's heart it is not readily to be eliminated. Though it be very certain that a Savior who gathered little children lovingly around him, very denizens of his kingdom, was careless as to whether they had washed behind the ears, tests such as this keep many a youngster, not only out of the church, but on the street.

Kindergrartens, said a modern philosopher, were invented, not so much to train the child as to relieve the mother. Her piety's case cannot otherwise be alleviated than by the worst nursery in the world, the one open to all, the street, with all its allurements, its dangers and its degradations. This is precisely the influence which the Boys' and Girls' Club would combat in the words of Mayor Head, it plays the part of the gardener and transplants to better ground, for a while, those that need sunshine and light.

That the meeting at Macaulay's Theater is to be repeated is good news. Let boys be boys—good boys, but not good, good boys. The girls will take care of themselves, and of the boys, too, if they are given the chance.—Louisville Times.

## BEWARE OF OINTMENTS FOR CATARRH THAT CONTAINS MERCURY

as mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous surfaces. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo Ohio, by J. F. Cheney & Co. Testimonials free. Sold by druggists. Price 75c. per bottle. For the after-effects of any serious illness, like the Grip, Cardui is the best tonic you can use.

It builds strength, steadies the nerves, improves the appetite, regulates irregularities and helps bring back the natural glow of health.

Cardui is your best friend, if you only knew it. Think of the thousands of ladies whom Cardui has helped! What could possibly prevent it from helping you?

Remember you cannot get the benefit of the Cardui ingredients in any other medicine, for they are not for sale in any drug store except in the Cardui bottle. Try Cardui.
